- Carefully comply with the maintenance & cleaning instructions.
- In case of malfunctioning or damage of the wiring or any electrical parts, refer to a qualified electrician.

## MAINTENANCE & CLEANING

---

- To prevent dust and dirt from sticking to the plastic surfaces, periodically clean the products with a damp cloth and neutral liquid soap diluted in water.
- Avoid using ethanol or any liquids containing, even in small amounts, acetone, trichloroethylene or ammonia (solvents in general).
- It is recommended the use of SLIDE's "CleanUp" cleaner or a degreaser. Spray the cleaning product on the surface, rub with a damp cloth and rinse abundantly with water (preferably with a high pressure washer). In case of persistent stains use a high pressure washer or scrub eraser. The use of the scrub eraser (melamine foam - Scotch-Brite® Easy Eraser or similar) is only recommended for white colour, as they are slightly abrasive.
- The lacquered version is also suitable for outdoor use, however it is more sensitive to scratches: periodically clean with a polish cleaner, gently rubbing with soft cloth/cotton wool.
- Cushions can be cleaned with a damp cloth, neutral liquid soap and water.
- For metal parts use specific cleaners.
